PYRAMID CONFERS HONOR ON SEVEN

Bryan Morse Receives Pledge to Honorary Membership in University's Most Exclusive Society.

Seven of the leaders in athletic and student affairs at G. W. U. are now wearing the buff and blue pledge ribbons of Pyramid Honor Society. The spring election was held at the Law School Building on Monday evening, April 11, and, although the constitution of Pyramid provides that ten men may be elected each spring from the junior and senior classes, only seven were deemed worthy by their deeds of membership in this, the only men's honor society in the University.

Those elected were: Bryan Morse (to honorary membership); Charles M. Boteler, Law '22; Waldo A. Clark, C. C. '22; John R. Daily, Law '22; John G. Ladd, Eng. '22; Thomas E. Lodge, Law '22; and George L. Nielsen, Law '22.

Following is an enumeration in part of the activities of the newly elected men:

Bryan Morse, of Washington, D. C. After a successful four years at Western High School, where he was particularly active in athletics, having captained the track and basketball teams for two years, Bryan Morse entered Clarkson College of Technology in 1906, receiving the degree of B. S. in E. E. in 1909. At Clarkson Mr. Morse captained the baseball team for three years, participated in many other sports, and became a member of Omicron Phi Omicron Fraternity. In 1910 Mr. Morse coached the G. W. U. track team and then went to Western as athletic director, where he remained until 1920, when he returned to G. W. U. as Director of Student Activities. Mr. Morse also belongs to the G. W. Club.

Charles Madgefrau Boteler, of Washington, D. C. As a freshman in Columbian College Charlie was very active in student affairs, being elected president of his class for 1917-1918, acting as chairman of the 1918 freshman prom committee, and making his letter on the basketball team of that year. He played on the basketball

(Continued on page three.)

PROFESSOR CROISSANT RECIPIENT OF HONOR

Elected Vice President of the National Federation of Shakespeare Clubs.

Dr. DeWitt Clinton Croissant, professor of English in the George Washington University, was signally honored by being chosen vice president of the National Federation of Shakespeare Clubs on April 14. Prof. Croissant is a native of Illinois. He was granted the degree of bachelor of arts at Princeton in 1899, and doctor of philosophy in 1911. He was a student at the University of Chicago 1899-1901, and at Munich 1903-1904.

In 1901 Prof. Croissant went to Colorado, being instructor in English at the University of Colorado 1901-1902. He was instructor in English at the George Washington University 1905-1906, and assistant professor 1906-10. He again went West and was assistant professor of English 1911-13, associate professor 1913-15, and director of university extension 1913-1914 at the University of Kansas. He then traveled extensively in connection with his duties as general field agent of the Simplified Spelling Board in 1915-1916. He has been professor of English in the George Washington University continuously since September, 1916, being granted one year's leave of absence, 1919-1920, during which he was professor of English at the Massachusetts Institute of Technology. During the world war Prof. Croissant accepted additional duties and responsibilities in the capacity of special investigator for the United States Bureau of Efficiency, 1918-1919.

Prof. Croissant is a member of the Simplified Spelling Board, the Modern Language Association of America, Sons of the American Revolution, Sigma Chi, Federal Schoolmen's Club, Columbia History Society, Presbyterian Club, National Press Club (Washington, D. C.), and Cosmos Club. He is the author of "Studies in the Work of Colley Cibber," 1912.

SIGMA TAU GRANTS CHARTER TO G. W. U.

G. W. Chapter of National Engineering Fraternity Installed Monday, April 18, at Delt House.

Xi Chapter of Sigma Tau, a national honorary engineering fraternity, was installed at George Washington University by F. A. Wirt, grand historian of the fraternity, Monday, April 18, in the Delta Tau Delta Fraternity House. The charter members of Xi Chapter are Zeno Alvin Biggs, Ralph Herman Brauner, Richard D. Campbell, Benjamin Carpenter Cruikshanks, Walter Clifford Scott, Jr., Harry Ledden Strang, Fred C. Shoemaker, and Heman Smith Ward. Three honorary members, Dean Howard Lincoln Hodgkins, Prof. Albert L. Harris, and Prof. John R. Lapham, were also initiated. Mr. Arthur P. Davis has been elected, but was not initiated because of his absence from the city.

As early as May, 1920, the charter members were considering submitting a petition to Sigma Tau, and this action was taken in the fall. The members were notified late in March of the acceptance of their petition, and on April 18 F. A. Wirt, assisted by E. E. Bartleson and A. Albertson, of Swarthmore, and E. B. Fields, of Penn State College, the men were initiated and the charter granted. Before the ceremony the visitors were shown the points of interest of Washington by the initiates. After the ceremony a dinner was held at the Garden Tea House.

Sigma Tau was founded at the University of Nebraska February 22, 1904. The rolls of active chapters is as follows: Alpha, University of Nebraska; Gamma, University of Pennsylvania; Epsilon, Kansas State College; Zeta, Oregon State College; Eta, Washington State College; Theta, University of Illinois; Iota, University of Colorado; Kappa, State College of Pennsylvania; Lambda, University of Kansas; Mu, University of Oklahoma; Nu, Swarthmore College; Xi, George Washington University.

Only Juniors and Seniors who comply with the requirements are eligible to membership. They are judged as:

(Continued on page three.)

GLEE CLUB IN FINAL CONCERT MAY 12

The George Washington Glee Club will give its final concert May 12 at the Church of the Epiphany, under the auspices of the Young People's Society of that church. The concert will last about an hour and will be followed by dancing.

The Glee Club has been working diligently since the joint concert with the Columbia University Musical Clubs and will present an entirely new program. The Epiphany Church is a splendid place for the concert and dance. It has a large ballroom, a good floor and stage, and a convenient balcony. Manager Robert Colflesh is in charge of the ticket sale.

PANHELLENIC PROM AT RAUSCHER'S APRIL 30

The annual Panhellenic prom will be held Saturday, April 30, at La Maison Rauscher, Connecticut Avenue and L Street. The prom is given by the Panhellenic Association of George Washington University, composed of delegates from the women's fraternities. The prom committee has engaged Dutch Whelan's superb orchestra for the evening and promises that the spacious ballroom will look its best. Attractive programs are in readiness for the dancers, and the refreshment committee reports that the results of their work will be appreciated during the intermissions.

G. W. RECEIVES PORTRAIT OF FORMER TRUSTEE

The University has recently received through the generosity of Mr. Andrew Rothwell Sheriff a very valuable oil portrait of his grandfather, Mr. Andrew Rothwell, for many years connected with the University as one of its officials. This portrait has been placed in the chapel as one of the University collection and, within a short time, will be suitably marked.

Mr. Andrew Rothwell served for a longer term than any other man as trustee of the University, then Columbian College. Elected in the year 1835, he was, until his death in 1883, a highly useful and loyal member of the Board of Trustees. He also served as secretary of the college from 1835 to 1852.

ALUMNI ELECT OFFICERS AT ANNUAL DINNER

Columbian-G. W. U. Ass'n Hears Trade Commission Chief on "Government and Public Welfare."

The Columbian-George Washington Law School Association held its annual dinner Saturday evening at the Arlington Hotel with many prominent local attorneys in attendance. Samuel Herrick, president of the association, was toastmaster.

Preceding the dinner the following officers were elected for the ensuing year: Samuel Herrick, '01, president; Gilbert L. Hall, '18, first vice president; William L. Symons, '95, second vice president; Philip Ersler, '17, third vice president; George W. Datzell, '97, treasurer; John W. Townsend, '20, secretary. Others chosen for the executive committee were William E. Harvey, '93; Edward Stafford, '14; and Paul E. Shorb, '20.

Following a six-course dinner, interlarded with music, addresses were made by the following speakers: Gilbert L. Hall, '18; P. E. Shorb, '20; Philip Ersler, '17; Judge John G. Pollard, '93; Bryan Morse, Director of Student Activities; J. W. Cox, '61; William B. King, '80, member of the Board of Trustees; Dean Merton L. Ferson; Thomas S. Hopkins, '19, member of the Board of Trustees and the oldest living graduate of the Law School; and Hon. Huston Thompson, chairman of the Federal Trade Commission.

Mr. Morse outlined the plan for cooperation between the alumni and the student organizations for better financing and support of all student activities for the coming year. He made a plea for the alumni to subscribe to the alumni privileges plan. He paid a tribute to the Law School for the splendid support which he had received from both the faculty and the student body. A committee of the association was appointed to place the privileges plan before the Law School alumni during 1921-1922.

Mr. King spoke on the matter of an alumni endowment for the University. He also complimented Mr. Morse for the splendid and efficient way in which he had organized student athletics and other activities.

Dean Ferson gave a résumé of what the Law School had done during the year, told of its present equipment, facilities, and faculty, and of the school's needs and plans for the future. He pointed out that a good law faculty can only be maintained where adequate salaries are paid, as law professors are a "migratory class of men" and will not stay where salaries are low, as is the case at present in our law school.

Hon. Huston Thompson gave the principal address of the evening, his subject being "The Government and the Public Welfare." He said that this was essentially the "Age of Man," and pointed out the great strides which man has made in the last century, especially along lines of mechanical development and increased scientific knowledge, and the corresponding economic unrest prevailing throughout the world. He conceived this to be in part a problem in public welfare, for the Government to solve, and then showed that our Federal Government could, under the constitution, properly control the nation's business, which has now become interstate and international instead of intrastate, as when we first became a nation. He told of the great abuse of the public confidence practiced generally by great business monopolies and of the part the Federal Trade Commission is taking in attempting to protect the people from this evil. He emphasized that the old maxim "caveat emptor" (let the buyer beware) should no longer apply, and that the Government, exercising its power for the public welfare, should see that it becomes necessary for the "seller to beware" instead.

CO-EDS INCREASE AT LAW.

The increase in the number of day students at the Law School is noticeable among the women members. There are now about 15 women in the morning sections. On April 20 a luncheon was given at the Cinderella, with a view to getting better acquainted socially.

PRESIDENT HARDING EXPECTED AT MASQUE

"I Won't Cheat You, Boys," Chief Executive Tells Delegation; Tickets Going Fast.

Declaring that he would not cheat the carnival committee by promising to attend the masque fete and then fail to appear, President Warren G. Harding told a delegation of George Washington students who visited him last Saturday noon that if possible he would attend the May-Masquerade Carnival to be held Tuesday, May 3, in the auditorium of the Arcade. Fourteen and Park Road Northwest. The President further manifested his interest in the mammoth party by expressing his hopes for its success and the consequent establishment of a substantial gymnasium fund, the object to which the profit will be devoted.

Last minute preparations are being made for the carnival. Manager Wilford, of the Arcade, has declared the hall and roof garden are in readiness and the committee on arrangements has also finished its task.

The ticket drive has been carried on all week and the publicity committee, by means of the posters and extra Hatches, has told the town of the coming event. Dutch Whelan has given the services of his orchestra and this has been a big factor in the closing days of the sales campaign.

An excellent spirit of rivalry in the sale of tickets for the carnival has developed among the fraternities during the past week. Delta Tau Delta and Phi Alpha lead with 100% each on the sale of carnival tickets among the fraternities. Theta Delta Chi and Phi Sigma come next, with 85% of their quota sold to date.

NEW LIBRARY RULES ARE NOW IN EFFECT

Mr. Alfred F. W. Schmidt, librarian of the University, has made public the new rules for the library and is calling on all the students to observe them. The Hatchet has received the following statement from the librarian:

"In order that students and faculty may be able to study undisturbedly and advantageously in our reading room, and the library function as a university library should, I respectfully appeal for sympathetic cooperation in the observance of the following rules and regulations now effective:

"1. That no one enter the library except to study or to draw or return books;

"2. That entrance and departure be effected in as quiet a manner as possible;

"3. That there be no visiting nor conversation;

"4. That no coats, hats, umbrellas, nor packages of any kind be left in the library;

"5. That no brief cases, newspapers, nor trash be left on the library desks, nor anything which would hinder the use of the desk;

"6. That no candy, magazines, nor tickets be sold, nor any other business connected with student life be conducted in the library;

"7. That the assistant librarians enforce the above rules, and that all violations be reported to the librarian or the dean."

LECTURES FEATURE G. W. MEDICAL SOCIETY MEETING

The George Washington University Medical Society met Saturday, April 16, at 8 p. m., in Hall No. 1 of the Medical School, and listened to an interesting scientific program, at the conclusion of which a business meeting was held, followed by a smoker.

Dr. Edgar P. Copeland read the principal paper of the evening on the subject of "Syphilis in Infants," and Dr. Coursen B. Conklin also read a paper on "The Physical Condition of Baby Children in Institutions." A ten-minute talk on "Occurrence of Parasites in the Intestines of Returned Soldiers" was given by Col. E. R. Whitmore, and Dr. Francis R. Hagner made case reports on "Foreign Body in Bladder" and "Specimen of Infected Kidney."

The regular election of officers will be held at the monthly meeting Saturday, May 21, when the presidential address will be delivered. This will be the last gathering of the society until early in the fall.

G. W. & W. VA. CO-EDS TO DEBATE

G. W. Affirmative Team in Washington Carnegie Library; Negative Team in Morgantown.

On Saturday, April 30, George Washington University will, for the first time, be represented in the girls' inter-collegiate debate. A dual debate on the subject, "Resolved, That the legislatures of the several States should enact legislation to provide for the establishment of courts of industrial relations similar to the Kansas court," is scheduled. The word "similar" is defined to mean similar in principle and allowing some variations in the composition of the court.

The G. W. team will debate with West Virginia here in the auditorium of the Carnegie Library, Ninth and New York Avenue, at 8 p. m. The presiding officer will be Mrs. Nannette Paul. The judges will be Miss Mary Anderson, director of the Women's Bureau, Department of Labor; Mrs. Helen H. Gardener, Civil Service Commissioner, and Miss Helen Jamison, Associate Dean, Washington College of Law.

The negative team goes Friday to Morgantown to meet the college there on Saturday.

The members of the G. W. affirmative team are Helen Carloss, Sarah Tilghman, and Katherine Gayle; and Ruth Audas is alternate. The opposing team consists of Jane Allen and Grace Kelley, of the class of '22, and Rachel Tuckwiler, '21.

The G. W. negative team is composed of Filimora Wilgus, Katherine Duggan, and Edith Archey, with Marion Holliday as alternate. Frances Parks goes with the team as manager.

The debaters are all law students holding high scholastic records. All of them are members of the Columbian Debating Society, and almost every one is a college graduate with debating experience. Helen Carloss made the triangular debate team, and Miss Wilgus and Mrs. Archey were on the squad. Katherine Gayle took part in the triangular debate two years ago and is a member of Delta Sigma Rho, honorary debating fraternity.

The debate has been coached by Gilbert L. Hall and managed by Mr. Clarence A. Miller.

A reception and dance at the Law School will follow the debate.

BARBAROUS AGE RELICS DISPLAYED AT BANQUET

G. W. Chemical Society Employs Unique Decorations To Adorn Banquet Hall.

Stills, fermentable grains, and relics of the antediluvian age were the catalytic decorations for the George Washington University Chemical Society's annual compound of feed and fun, which was formed at Harvey's Wednesday night, April 20.

A committee of chemists consisting of Miss Marie O'Dea, Albert J. Mottern, J. Frank Ellis, George Corey, J. F. T. Berliner, and N. H. Sanborn worked out the formula for a quantitatively and qualitatively delightful evening for their fellow society members by taking these ingredients from Harvey's laboratory: Celery, olives, puree of tomato, fish, broiled chicken, potatoes, peas, asparagus tip salad, ice cream meringue, and coffee; to which the following elements were added: Dr. Charles Edward Munroe, Dr. Howard Lincoln Hodgkins, Dr. George Neely Henning, Dr. William Allen Wilbur, Dr. Hiram Colver McNeil, Dr. Otis Dow Sweet, Dr. Edwin Allston Hill, Dr. Thomas Benjamin Brown, Dr. Henry Albert Lepper, Walter Scott, Beverly Clarke, Gordon Tibbets, and Mr. Meyer Weinstein, toastmaster.

Many references were made to home brew and other chemical jokes, speculation was indulged in as to how C₂H₅OH plus prohibition produces C₃H₅OH, but the mystery which crowned the evening was the covered statue to the departed brother. When it was unveiled it was found to be a beer stein.

The officers of the society are Gordon C. Tibbets, president; Arthur Hartman vice president; George Corey, secretary; Albert J. Mottern, treasurer.

WASHINGTON, D. C.

APRIL 29, 1921

Hail, Sigma Tau!

The installation of Xi Chapter of Sigma Tau in the Engineering College of George Washington University is well-deserved recognition of the prestige attained by the college, due to able administration and instruction by the faculty and close cooperation and sincere efforts on the part of the ever-growing student body.

The Engineering College may not be ideally housed nor equipped but these handicaps have failed to deter the display of energy and enthusiasm which qualified twelve of those associated with the institution to become members of Sigma Tau, the honorary engineering fraternity whose requirements are scholarship, practicality, and sociability.

The Hatchet, as the official voice of the University, welcomes Sigma Tau with the hope that it may be a most valuable asset to the Engineering College and a mighty aid in its progress.

Elect Workers

Student elections are at hand and the annual problem of selecting representatives for the various colleges is again presented. Consider carefully the candidates. Find out which they seek—honor for themselves or an opportunity to serve their constituency. See to it that you elect those who will diligently work for and ably represent your college.

The Co-Ed Debate

The first intercollegiate debate in the history of George Washington, in which all of the participants are women, is scheduled for Saturday night. The debate is the climax to the interest manifested in debate among the women of the Law School and is but another characteristic act of G. W. U. in advancing into new fields to meet the demands of the students.

The debate is an innovation in that all of the participants are women, but the debaters have enviable reputations. A live subject has been selected, the arguments have been carefully prepared, and should be forcefully presented. The University may be justly proud of its able co-eds and should reward their efforts by a large attendance at the clash with the co-eds of West Virginia.

ESSAY SUBJECTS ANNOUNCED.

Prof. Charles C. Swisher announces the subjects for the prize essays in history. "The Mexican Policy of the Democratic Party Under Wilson (1913-1921)" is the subject for American history. "Ireland Under Home Rule (1882-1899)" is the topic for English history. For a full description of the prize one should consult page 42 of the general catalogue, which tells about the D. A. R. prize, the Walsh prize, the Hubbard memorial prize, and the Colonial history prize.

All senior students who have taken courses in history are eligible to enter the contests.

LECTURES ON LOCAL BIRDS.

Dr. Paul Bartsch, professor of zoology, lectured on the water birds about Washington at the assembly hall of the Y. M. C. A., 1736 G Street Northwest, on Friday evening, April 22, at 8 o'clock, under the auspices of the Red Triangle Outing Club. The lecture was illustrated by an excellent series of lantern slides. The club announces an illustrated lecture on the land birds about Washington at the Y. M. C. A. on Wednesday evening, May 4, at 8 o'clock, by Prof. Bartsch. These lectures are of particular interest to students of ornithology and practical zoology.

TENNIS TOURNAMENT BEGINS.

The girls' tennis tournament opened Monday, April 25, under the direction of Managers Symmonds and Markley. The schedule for the games has been posted on the main bulletin board. The first set of games must be played by Monday, May 2. It is up to the players who are to play to see their opponents and make arrangements as to when and where the games are to be played.

W. U. C. TO ELECT OFFICERS.

The woman's University Club met in its rooms at 2027 G Street Wednesday, April 14, 1921. Among the more important announcements was the election of officers for the coming year on May 11 at 8 o'clock in the chapel at Lisner Hall.

After the short business session, the remainder of the evening was turned into a social hour.

ENGLISH HISTORIAN HERE.

An interesting lecture is to be given under the auspices of George Washington University in the auditorium of the Concordia Church, at the corner of Twentieth and G Streets, on Saturday morning, April 30, at 11:15 o'clock, on the subject "Napoleon and His Times," by Prof. John Holland Rose. The lecturer is one of England's most distinguished historians and is at present professor of naval history in Cambridge University.

STUPID STEVE SAYS

Dear Stupe: Can you suggest an original costume for me to wear at the Masked Carnival on May the 3rd?

Answer: I might suggest an original costume for you to wear, but I doubt if you'd wear it. I'd have to tell you in private, anyway.

Dear Stupe: I see by the "Axe" that G. U. and C. U. have been invited to the Masked Carnival. Will there be a place provided for us to check our guns?

Answer: You'd be a fool if you checked it.

Dear Steve: I may say that the engineers have done some tall engineering to grab a charter from Sigma Tau.

Dear Stupe: Has Howard University been invited to Mr. Shea's dance on May the 3rd?

Answer: H—l no; there shall be no CHOCOLATE cake eaters permitted within our precincts.

I've never seen Pick Shea without two or three fair co-eds on each arm?

It seems that some people's chief asset is being popular with the other sex. (Names on request.)

"When the rooster crows at sunrise, In that strident voice of his, Why the weather either changes, Or remains just as it is."

Lives of cashiers all remind us
 We should make our skip in time,
 And, in skipping, leave behind us
 Footprints to no other clime.

Speed? Say, this guy's name is Man-O-War!

TALK ABOUT being

QUICK ON the trigger.

ONE OF our salesmen.

ONCE SAW a man

ROLL A cigarette.

AND STOP to light it.

JUST THEN a piece

OF FINE French pastry.

(YOU KNOW the kind

IN THE one-arm joints.

THEY CALL 'em "sinkers.")

FELL ABOUT ten stories.

FROM THE lunch-box

OF SOME wealthy plumber.

AND BEANED the mail.

OUR SALESMAN dashed up.

AND SAID, "My dear sir,

WHAT HAPPENED?"

THE MAN rubbed his dome.

AND BEGAN, "I was just

LIGHTING A cigarette."

"GEE WHIZ," our man said,

"HERE—TRY mine."

THEY'LL LET you know.

YOU'RE SMOKING.

AND THEY satisfy.

BUT THEY'LL never

KNOCK YOU flat."

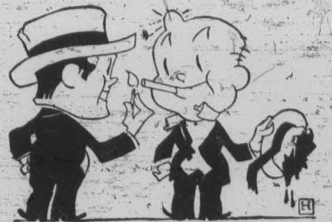

AND THE man grinned.

AND SAID, "Son,

IF YOUR smokes

HAVE YOUR speed,

THEY'LL SATISFY, all right."

AND speaking of speed, the fastest-growing cigarette on the market is this same Chesterfield. The reason? Simple enough—people like 'em better. That "can't-be-copied blend"—that air-tight package—that moderate price—that "Satisfy" taste—no wonder Chesterfields are leaping ahead. On every count, they certainly do "Satisfy."

Air-Tight Tins of 50

Ask your dealer to show you the new vacuum-sealed tins of 50 Chesterfields. A compact, convenient and absolutely AIR-TIGHT packing—the cigarettes keep fresh indefinitely.

HOPES FOR ENOSINIAN CENTENNIAL CELEBRATION

Former Officer Recounts Accomplishments of Historic Society; Promises Support of Former Members.

Much interest has been manifested in the revival of the Enosinian Society, the University's oldest student organization. Mr. George W. Hodgkins, formerly an officer of the Enosinian Society and now enrolled in the Graduate School, has sent The Hatchet some interesting information regarding the society in its prosperous days. The society conducted excellent debates and produced a Shakespearean program during the Shakespearean tercentenary in 1916.

Although the society had no part in the celebration of the University's hundredth birthday, it should celebrate its own centennial next year. In the constitution of the society there is a clause providing that members continue to be active even after leaving the University, and Mr. Hodgkins predicted a survival of interest among the older members that would make its history more than a nominal inheritance.

SPANISH ENTERTAINMENT MAY 18

The Spanish Club plans to give a Spanish entertainment and dance on May 18 at the play house and efforts are being made to attract a large number of students. Tickets for both entertainment and dance are 50 cents apiece. The tickets are now on sale by all the members of the society. The proceeds of the evening will go to the Student Activity Fund.

AN OPEN LETTER

While The Hatchet does not commit itself to the opinion expressed below, the paper is a student publication through which the students may express their views.

"Heretofore, students in the University have given the matter of elections to membership in the Pyramid Honor Society very little thought. During the past two years, generally speaking, members of the society have elected men who have really devoted time, energy, and whole-hearted interest in the affairs of the University, and for that reason students haven't bothered and worried about the unprecedented power which this body has invoked in determining from time to time 'who's who and why' in the University."

"However, in looking over the latest pledges to this society the unorganized elements of the University are beginning to wonder just what sort of men the Pyramid Society means to consist of. When first inaugurated the society included the most active men in the University—men who were really 'big men' in student affairs. These original members helped formulate policies for the University which have had a lasting influence and which have helped to make our University a better and a greater institution. And for some unknown reason this group of men was given the power of deciding among themselves who should from semester to semester be entitled to sit with them in the councils of the mighty 'as the most active students' in school."

"Ordinarily it isn't anybody's business to care a whoop what kind of men a fraternity should comprise. Fraternity elections are decidedly a matter of 'self determination' for each fraternity. The Pyramid Honor Society is, however, in this respect entirely different. It represents the pride of the University in its scholarship and student activity and leadership and, hence, directly concerns every loyal student in the University."

"If the Pyramid Honor Society wants to enjoy its charter right of being the mighty judge in the University who shall sneeringly turn up the nose and condescendingly look over the eligible men and, while sitting in 'star chamber session,' pronounce the great verdict that decides upon each new member, it had better get a new measuring rod or else become the laughing stock of the school. What do these Pyramiders mean by extending the membership of their society to men who have never been heard of before except as the school's best tea dancers? Are we to understand that because some of them have generously lent their cars for the hauling of base ball and football players from school to the athletic field or because they have graciously consented to be 'John on the spot' to keep secret at some athletic meet of the University entitled a man to rise to the delicious heights of collegiate fame which membership in the Pyramid entails?"

"With perhaps a single exception, there is not one Pyramid pledgee who has done anything to brag about—not from what can be casually overheard in the University corridors and smoking rooms. And with the school well represented by men of true worth who have done much toward helping the University in its onward strides, the Pyramid comes along, closes its doors, and by a little game of loves me, loves me not chooses a few men who have never even made first base as student leaders."

"It isn't necessary that the Pyramid select 'home-runners.' We don't expect that. But we don't want this honor society to high-brow us, slap us in the face, and then autocratically select some 'foul balls' of the lowest grade of mediocrity as Pyramiders and in explanation say that they have been the 'most active' students in the University."

"Ridiculous as it is, it is really no laughing matter. If the students at large have no say as to who's really their best man in college life, which ought to be given them by way of veto over the arbitrary power of the Pyramid Society, it won't be long before the best rooster on the side lines, the 'lounge lizards,' 'cake eaters,' etc., etc., will all qualify as George Washington University's honor men."

"JOSEPH CONRAD FEHR,
(A Student of G. W. U.)"

G. W. FROSH DEFEAT MARYLAND BALL TEAM

Hits that were good for extra bases, coupled with superior pitching on the part of Bray, were the reasons that the Maryland freshmen bowed to the George Washington Frosh, 9-5, in the game played at College Park, Md., April 21, giving G. W. its fourth straight win.

G. W. frosh fielding was nothing to brag about, as they made seven errors. Bowman, at second, being the chief offender, chalking up three miscues. Four of Maryland's runs are directly accountable to misplays.

Gil Walter, doing duty behind the plate, "busted" out another home run, making the third this season. Dick Vidmer, playing the initial sack, came through with a triple.

Score by innings: R. H. E.
G. W. U. . . . 2 1 0 0 2 0 4 0—9 12 7
M. U. F. . . . 1 0 0 0 0 2 0 2 0—5 7 2

NOMINATE OFFICERS FOR ENGINEERING SOCIETY

Illustrated Lecture by Chief Sparrow; Nominations Still Open; Sphinx Serves Supper.

A lecture outlining the efforts being made to increase efficiency of airplane engines through the use of higher compression ratios, by S. W. Sparrow, chief of the High Altitude Laboratory, Bureau of Standards, was a feature of the regular monthly meeting of the Engineering Society held in the chapel, Lisner Hall, on Tuesday evening, April 12, at 8 p. m. Mr. Sparrow's remarks were supplemented by a series of stereopticon slides showing one of the airplane engines used in the laboratory at the bureau and several graphs plotted to show clearly the data obtained in the tests. He pointed out that every effort was being made to render engine conditions the same at high altitudes as on the ground in order to produce maximum efficiency, and in this connection explained the function of the supercharger in maintaining ground atmosphere pressure in the carburetor at high altitudes. Maj. Schroeder used a device of this kind in making his altitude record at Dayton, it was stated.

Nomination of officers for the coming year and the details of the inspection trip to be made on April 22 were the topics taken up as new business at the meeting following the lecture. Walter C. Scott, president, presiding. The following nominations were made:

For president—Walter C. Scott, A. L. Lanigan; for vice president (civil engineering)—J. G. Ladd, M. J. Buzzard, J. L. White; (mechanical engineering) R. Best; (electrical engineering) J. R. Boyd; for secretary—Miss Frances P. Ross; treasurer—A. L. Lanigan, C. E. Proudley; executive committee—D. O. Woolf, Henry Schmidt.

Nominations remain open until one week before elections, and any further selections for the officers named should be handed to Mr. Scott promptly. The elections will take place at the next regular monthly meeting of the society, May 9.

A tasty plate dinner followed by a dessert of cake plentifully surmounted by whipped cream was served just before the meeting by the Sphinx Honor Society, represented by Elizabeth Earnest, Margaret Metzger, Essie Lee Pearson, Martha Waring and Mrs. Waring. The slightly large attendance at this stage of the meeting will testify to the goodness of the feast.

PYRAMID CONFERS HONOR ON SEVEN

team of 1919-1920, making another letter; was elected captain of the team for this year, put up a great game at guard, and earned his third letter. He is a member of Sigma Chi Fraternity, and of the G. W. Club.

Waldo Appleton Clark, of Washington, D. C. During 1919-1920 Clark was on the editorial staff of The Hatchet and chairman of the Columbian College freshman class social committee. This year he was assistant manager of football and manager of the freshman football team, on the editorial staff of The Hatchet, on the business staff of the Cherry Tree, chairman of the junior reception committee, member of the finance committee of the May Carnival committee, candidate for the rifle team, and ex-officio a member of the Student Council. He has been elected manager of football for 1921-1922. He is a member of the Phi Sigma Kappa Fraternity.

John Ryan Daily, of Peoria, Ill. Jack entered the Law School in the summer of 1919 and is now a member of the junior class. He played guard on the basketball teams of 1919-1920 and 1920-1921 and has been elected captain of the team for 1921-1922. He also played a great game as halfback on the 1920 football team. He has three letters to his credit to date. Daily is a member of Kappa Sigma Fraternity, Phi Delta Phi Legal Fraternity, and the G. W. Club.

John Gardner Ladd, of Chevy Chase, Md. John made his letter on the varsity basketball team of 1918-1919. During 1919-1920 he was treasurer of the sophomore engineering class, manager of the baseball team, member of the tennis team, athletic editor of The Hatchet. He has served as business manager of The Hatchet again this year and is also business manager of The Ghost, president of the junior engineering class and ex-officio a member of the Student Council. Ladd is a member of Theta Delta Chi Fraternity and vice president of the G. W. Club.

Thomas Ellis Lodge, of Magnolia, Del. Tom entered the Law School in the fall of 1918 as a member of the S. A. T. C. and is now a member of the junior class. He was advertising manager of The Hatchet, a member of the freshman prom committee, business manager of the Cherry Tree and ex-officio member of the Student Council during 1920-1921. This year he was a member of the junior reception committee, chairman of the finance committee of the May Carnival com-

SIMGA TAU GRANTS CHARTER TO G. W. U.

(Continued from page one.)

cording to "scholarship, practicability, and sociability, the three requirements of a successful engineer." Scholarship and practicability are judged by both the active men and the faculty, while the sociability rests with the active men. Honorary membership may be granted to the members of the engineering faculty, ranking higher than instructor, or to any prominent practicing engineer. Further requirements are set forth in the constitution of the fraternity as follows:

"In scholarship, the candidate shall rank among the upper third of the eligible men."

"Practicability is to be a measure of the man to apply his engineering knowledge in the solution of practical problems."

"Sociability shall be a measure of the public spiritedness of the man."

"He shall be approved by at least three members of the engineering faculty, who have come in contact with him."

All the chapters work with the school in every way possible to make stronger engineering colleges at the institutions in which they are located. Sigma Tau is not a political organization and, to prevent participation in school politics as an organization, the following clause appears in the constitution: "It shall be the policy of this fraternity to refrain from all participation in college politics, and no member shall expect support from this fraternity in any candidacy for office in any college organization or place of honor because of membership in the fraternity."

The charter members of Xi chapter fulfill all the Sigma Tau requirements of scholarship, practicability, and sociability. In addition to setting an excellent example in the field of scholarship, they have been most active and able on the campus. The work of Dean Howard Lincoln Hodgkins, Profs. John R. Lapham and Albert L. Harris is well known to the University. Mr. Arthur P. Davis is chief of the Reclamation Service and president of the American Society of Civil Engineers.

G. W. WINS IN SLUGFEST.

Displaying better hitting ability as well as better hurling, the G. W. frosh downed the Tech Reserves in a game loosely played by both teams at Diamond 4, Seventeenth and B Streets, Friday afternoon, April 15.

The work of Spano, the first hurler for the frosh, was of such caliber as to have the high school reserves eating out of his hand, as he struck out five men in the four innings he worked and allowed but two hits. Ayers, who took up the hurling duties in the fifth session, received rough treatment in the following frame, as he gave 3 passes and was nicked for the same number of hits, to give Tech five runs. His support was poor, as two errors were made. After this Ayers had the opposition completely under control, allowing only three hits and one run outside of the sixth inning. Tiffey, the Tech moundman, whiffed four of the frosh and granted eight walks. He was pounded for twenty hits, five of which went for extra bases, including a home run by Gil Walter.

Score by innings: R. H. E.
Tech . . . 0 0 0 1 0 5 1 0 0—7 8 8
G. W. F. . . 6 2 0 1 2 5 1 4—21 20 2

mittee, on the Cherry Tree staff, and is a nominee for the Student Council for 1921-1922. Lodge is a member of Kappa Sigma Fraternity and of Columbian Debating Society.

George Leonard Nielsen, of Salt Lake City, Utah. George was a member of the honor and social committees of the first year law class, 1919-1920. This year he is manager of the track team, ex-officio a member of the Student Council, and a member of the Junior prom and junior class activities committees. Nielsen belongs to the Sigma Chi Fraternity, Phi Delta Phi Legal Fraternity, and the Columbian Debating Society.

ENGINEERS INSPECT SPARROWS POINT STEEL

The annual inspection trip of the Engineering Society was made on Friday, April 22, arrangements having been completed for a day's tour and inspection of the plant of the Bethlehem Steel Corporation at Sparrows Point, Md., a short distance from Baltimore. Walter C. Scott, president of the society, was in charge. Leaving at 8 a. m. on the W. B. & A., the party arrived at their destination at 10.30 a. m. and were occupied with the tour of the plant until after 3 in the afternoon, returning to Washington about 5.

The party numbered about 100 students. Practically the entire membership of Prof. John R. Lapham's class in materials of construction and Prof. Hiram C. McNeil's class in metallurgy were included, these classes having taken up the various steel-making processes in detail.

LAW SENIORS DINE

The Law Seniors had a most successful dinner at the Hotel Lafayette on April 14. An excellent menu was served at a reasonable price, and music, lights, and good feeling made it an occasion to be remembered. The president of the class, H. T. Kay, presided and informal toasts were given by various members of the class.
